

Instructions for ACTIVITY #1 Build a Chain of Infection

Preparation

Before class, duplicate and cut out link strips, for each student. Paperclip sets of six together. Also, before class begins, provide the students with a roll of tape and ask them to pass the tape around the room. Instruct the students to tear off six strips of tape, two inches in length and to place the strips of tape on the edge of their tables or desks for later use.

Tell Students

This is included throughout Section 2 of the curriculum

Explanation of Activity

Students will build a chain of infection throughout Section 2 and then break it at the end of the section.

Wrap-up

This is included at the end of Section 2 of the curriculum
