Dear Sirs:

In response to a letter I received from Mrs. Watson, I cannot support another Hospice Palliative Care Center in Yadkinville. We built a new home in Yadkinville in 2000. We loved the Town and was very active in Church, Civic and Community activities. We supported our business and health care places. We saw our Hospital make changes to meet the needs for short or long term illness. It is still being used for this purpose. We, also friends and relatives received good treatment and care in the Yadkinville Hospital.

My husband suddenly passed away three years ago. Being alone I felt the need for a retirement home and moved to Surry County.

I still love Yadkin County and am concerned about another health facility being built when there is one already there that could be utilized at a lot less tax money that could serve this area.

Since I received a letter from out of County wanting my support for the home, I felt my voice should be heard opposing the home.

Thank You
Lola S. Davis
