### **Two compete for dialysis stations in Scotland County**

RALEIGH – Two applicants have filed three competing applications with the Certificate of Need Section of the N.C. Division of Health Service Regulation to develop 11 dialysis stations in Scotland County.

A public hearing for these competing projects will be held at 11 a.m. on Nov. 19 at the Scotland County Memorial Library, 312 West Church St., Laurinburg.

The July 2013 Semiannual Dialysis Report identified a need for 11 additional dialysis stations in Scotland County. The three applications are as follows:

- Bio-Medical Applications of North Carolina, Inc., d/b/a BMA Laurinburg proposes to add four dialysis stations to the existing facility for a total of 30 stations upon project completion. The project is expected to require no capital cost and to be complete by December 2014.
- Bio-Medical Applications of North Carolina, Inc., d/b/a FMC Scotland County proposes to add two dialysis stations to the existing facility for a total of 14 stations upon project completion. The project is expected to cost \$5,300 and to be complete by December 2014.
- Total Renal Care, Inc. d/b/a Scotland County Dialysis proposes to develop a 10-station dialysis facility upon project completion. The project is expected to cost \$1.6 million and to be complete by September 2015.

Anyone may file written comments concerning these proposals. Comments must be received by the Certificate of Need Section no later than Oct. 31 at the following address:

Certificate of Need Section  
Division of Health Service Regulation  
2704 Mail Service Center  
Raleigh NC 27699-2704
