RE: No Review / Duke University Health System d/b/a Duke Raleigh Hospital / Construction of a mobile equipment pad for MRI, PET and lithotripsy services / Wake County
FID #: 923421

Dear Ms. Cummer:

The Certificate of Need (CON) Section received your correspondence of June 29, 2012 regarding the above referenced proposal. Based on the CON law **in effect on the date of this response to your request**, the proposal described in your correspondence is not governed by, and therefore, does not currently require a certificate of need. However, please note that if the CON law is subsequently amended such that the above referenced proposal would require a certificate of need, this determination does not authorize you to proceed to develop the above referenced proposal when the new law becomes effective.

It should be noted that this determination is binding only for the facts represented by you. Consequently, if changes are made in the project or in the facts provided in your correspondence referenced above, a new determination as to whether a certificate of need is required would need to be made by the Certificate of Need Section. Changes in a project include, but are not limited to: (1) increases in the capital cost; (2) acquisition of medical equipment not included in the original cost estimate; (3) modifications in the design of the project; (4) change in location; and (5) any increase in the number of square feet to be constructed.

In addition, you should contact the Construction Section to determine if they have any requirements for development of the proposed project. Please contact the CON Section if you have any questions.

Sincerely,

Michael J. McKillip
Project Analyst

Craig R. Smith, Chief
Certificate of Need Section

Subject: Duke Raleigh Construction Project

Mike,

I wanted to notify the CON Section of a construction project at Duke Raleigh Hospital. Specifically, Duke is constructing a new mobile pad that will be able to accommodate mobile MRI, PET, and/or lithotripsy services, and upfitting office space relating to the provision of those services. The projected cost is \$1,076,304. As the project is under \$2 million, and does not include the acquisition of any regulated assets or the development of any new institutional health services, it is our understanding that the project does not require a certificate of need. If you have any questions, please let me know. Thanks.

I hope you have a great weekend.

Catharine
