No Review – Home Hemodialysis Training

Record #: 2551
Facility Name: Fresenius Medical Care of Brunswick County
FID #: 070678
Project Description: Add home hemodialysis training and support services
County: Brunswick

Dear Mr. Swann:

The Healthcare Planning and Certificate of Need Section, Division of Health Service Regulation (Agency) received your letter of March 2, 2018 regarding the above referenced proposal. The proposal described in your correspondence is not governed by, and therefore, does not currently require a certificate of need provided that the addition of home hemodialysis training services does not result in the development of hemodialysis training stations that are in addition to the total number of authorized stations.

In addition, you should contact the Acute and Home Care Licensure and Certification Section to determine if they have any requirements for development of the proposed project. Please contact this office if you have any questions. Also, in all future correspondence please reference the Facility ID # (FID) if the facility is licensed.

Sincerely,

Tanya S. Rupp
Project Analyst

Re: Determination of Material Compliance, FMC Brunswick County, Add Home Hemodialysis training and support
FID # 070678

Dear Ms. Pittman:

Bio-Medical Applications of North Carolina, Inc., d/b/a FMC Brunswick County seeks a Determination of Material Compliance, allowing BMA to add home hemodialysis training and support at the facility.

The facility was developed by way of CON Project ID # O-6892-11. The CON was issued October 14, 2011. The facility was certified effective August 29, 2012. There have been no changes to the facility since its original certification.

At this time, the facility has an in-center hemodialysis patient requesting to transition to home hemodialysis. BMA is not certified to provide home hemodialysis training and support, and therefore seeks to a Determination of Material Compliance allowing the facility to add this service.

The facility is already certified to provide home peritoneal dialysis training and support. BMA will utilize the same home training area for the home hemodialysis training and support services. Therefore no capital expenses will be related to this additional service.

BMA seeks a Determination of Material Compliance allowing BMA to add home hemodialysis training and support at this facility. If you have any questions please contact me at 910-568-3041, or email jim.swann@fmc-na.com.

Sincerely,

Jim Swann
Director of Operations, Certificate of Need
