**Exempt from Review – Replacement Equipment**

**Record #:** 4080  
**Date of Request:** December 9, 2022  
**Business Name:** Alliance Healthcare Services, Inc.  
**Business #:** 60  
**Project Description:** Temporarily replace a MRI scanner with a mobile MRI scanner  
**County:** Iredell

Dear Ms. Hinshaw:

The Healthcare Planning and Certificate of Need Section, Division of Health Service Regulation (Agency), determined that the above referenced project is exempt from certificate of need review in accordance with G.S. 131E-184(a)(7). Therefore, you may proceed to acquire without a certificate of need the mobile MRI scanner (SIG 273) to temporarily replace the MRI scanner (SIG 456) while the equipment undergoes repairs. This determination is based on your representations that the replacement unit will be removed following repairs and will not be used again in the State without first obtaining a certificate of need if one is required.

It should be noted that the Agency's position is based solely on the facts represented by you and that any change in facts as represented would require further consideration by this office and a separate determination. If you have any questions concerning this matter, please feel free to contact this office.

Sincerely,

Mike McKillip  
Team Leader

Micheala Mitchell  
Chief

RE: Alliance Healthcare Services - Written Notice for Exemption from CON Review for the Temporary Replacement of MRI Scanner SIG 456

Dear Mrs. McKillip and Ms. Mitchell:

I am writing regarding the urgent need to temporarily replace MRI scanner SIG 456 such that maintenance and repairs can be completed. Please accept this notice of exemption to temporarily replace SIG 456 with SIG 273, VIN# 1S9FA482X311825911 which is an existing mobile MRI scanner owned by Alliance and will be utilized as the interim temporary MRI for this scanner. When SIG 273 is no longer needed to serve as a temporary replacement for SIG 456, it will be removed from North Carolina.

The legacy Alliance MRI SIG 456 (VIN 1S9FA482481183226) is a scanner that has properly been reported in the 2023 NC MRI Equipment Inventory and serves:

- Piedmont Health Care Mooresville, 128 Medical Park Drive, Suite 102, Mooresville, NC 28117

This letter provides justification and written notice regarding the replacement equipment in accordance with NCGS 131 E-184. Alliance Healthcare Services also provides documentation that the equipment conforms to the Certificate of Need Laws and Administrative rules: GS 131E-184(a) (7) Exemptions from review to provide replacement equipment 10A NCAC 14C.0303 Replacement Equipment Administrative Rules.

#### Overview

This existing MRI scanner requires temporary replacement due to:

- Heating, Ventilation, and Air Conditioning (HVAC) parts failure
- Service to the existing host site is disrupted if temporary replacement MRI is not provided
- Alliance has no available capacity on other MRI scanners in North Carolina to provide coverage for the unit that needs to be repaired.

#### Compliance Documentation

Compliance with G.S. 131E-176 (22a) Replacement Equipment Definition is evident because the temporary replacement scanner has a fair market value of \$350,000 to \$400,000 which is far less than the \$2,000,000 threshold.

The replacement MRI equipment will be used for the same diagnostic purposes as the existing equipment. In addition, Alliance is providing written notice to the Department in accordance with G.S. 131E-184 (a) (7) Exemption from Review to provide replacement equipment.

Applicability and Conformance with Administrative Rule 10A NCAC 14C.0303 Replacement Equipment  
Alliance Healthcare Services plans to use an existing mobile MRI as a temporary replacement. No equipment will be purchased. The temporary replacement equipment conforms to the rules as follows:

10A NCAC 14C .0303 REPLACEMENT EQUIPMENT

(a) This Rule defines the terms used in the definition of "replacement equipment" set forth in G.S. 131E-176(22a).

Alliance Healthcare Services has reviewed this rule definition.

(b) "Currently in use" means that the equipment to be replaced has been used by the person requesting the exemption at least 10 times to provide a health service during the 12 months prior to the date the written notice required by G.S. 131E-184(a) is submitted to the CON Section.

Alliance Healthcare Services confirms that ESP21 meets the definition of "currently in use" because the MRI scanner provides service during the previous 12 months prior to the date of this written notice.

(c) Replacement equipment is not "comparable" if: (1) the replacement equipment to be acquired is capable of providing a health service that the equipment to be replaced cannot provide; or (2) the equipment to be replaced was acquired less than 12 months prior to the date the written notice required by G.S. 131E-184(a) is submitted to the CON Section and it was refurbished or reconditioned when it was acquired by the person requesting the exemption.

The replacement MRI scanner is comparable to the equipment being replaced because the temporary replacement equipment will be used to acquire the same types of MRI images and data. Alliance Healthcare Services certifies that the replacement mobile MRI equipment will be used for the same diagnostic purposes as the existing MRI unit.

The existing equipment, SIG 456, will be temporarily replaced by SIG 273, which will be removed from North Carolina once repairs to SIG 456 are completed. The temporary use of replacement SIG 273 will be discontinued in approximately three weeks (in December 2022) when the repair of SIG 456 has been completed and returned to service.

Thank you for your review and consideration of this information. Please call me at 805.325.3078 if you have any questions.

Sincerely,
