	During an observation of a medication pass on 02/15/11 at 4:00 P.M., the medication nurse (nurse #3) entered Resident #25's room, donned gloves and did a fingerstick. Nurse #3 then discarded the lancet, took off the gloves, and moved the medication cart to the opposite side of the hall to administer medications and do a fingerstick on Resident #8. She donned gloves in Resident #8's room, did a fingerstick with the same glucometer she used for Resident # 25 and returned to the cart to dispose of the lancet. The glucometer was not cleaned and disinfected between use for Resident # 25 and #8. After she finished doing the fingerstick on Resident # 8, nurse #3 retrieved an alcohol pad from the cart and cleaned the surface of the glucometer.				Licensed nurses were educated prior to the beginning of their next scheduled shift. Licensed nurses who have not been scheduled to work since February 15, 2011 will be required to attend the mandatory education prior to beginning their next scheduled shift. The content of the mandatory education conducted included the procedure described above.		:
	In a telephone interview on 3/3/11 at 4:55PM, nurse #3 stated she had worked at the facility since June 2010 as a prn (as needed) employee. Nurse #3 stated her schedule varied due to her other full time job. Nurse #3 stated she received training during employee orientation and with the staff on the floor. Nurse #3 stated she was trained by the floor nurse to clean the glucometer with alcohol between residents. Nurse #3 stated she may have missed cleaning the glucometer one time during the med pass observation on 2/15/11 with the state surveyor. She stated after the med pass observation on 2/15/11, she was inserviced to clean and disinfect the glucometer with (name brand) disinfectant wipes from the purple topped canister. Nurse #3 stated she did not recall receiving any inservices on glucometers				The SDC will re-educe nursing staff on the facility regarding "handling transporting linen to incluplacing linen on handwashing, bagging transportation to soiled areas, etc.".	y policy and ide, not ' floor, linen,
