She recalled when Resident #103 checked the balance on the debit card, there was unexplained money missing off the debit card. She stated it appeared NA #3 had used the debit card over a period of time in November 2024 without the permission of Resident #103 to use. She stated NA #3 was suspending pending investigation and was terminated at the end of the investigation. She stated the local police and state agency were notified and facility reimbursed Resident #103 money. The dishes from the dinner meal on 11/20/25 had not been washed because the dietary aides who were working that night had quit without notice, so the dishes had to be washed the morning of 12/01/25. As a result, breakfast was served 2 hours late at approximately 10:00 AM, which affected when the dishes would be ready to use to serve lunch. In an interview on 12/3/25 at 10:30 AM, the Administrator stated he was aware of dining service being late in the past and the facility had been trying to address the concern, but staffing had not been identified as the reason for late meals.
