--------------------	--	---------------	---	----------------------

E0000	Initial Comments  An unannounced recertification and complaint investigation survey was conducted on 03/22/26 through 03/26/26. The facility was found in compliance with the requirement CFR 483.73, Emergency Preparedness. Event ID # 1F5585-H1.	E0000		
F0000	INITIAL COMMENTS  A recertification and complaint investigation survey was conducted from 03/22/26 through 03/26/26. Event ID# 1F5585-H1. The following intakes were investigated #2603698 and #887210.  5 of the 5 complaint allegations did not result in deficiency.	F0000		
F0552 SS = E	Right to be Informed/Make Treatment Decisions  CFR(s): 483.10(c)(1)(4)(5)  §483.10(c) Planning and Implementing Care.  The resident has the right to be informed of, and participate in, his or her treatment, including:  §483.10(c)(1) The right to be fully informed in language that he or she can understand of his or her total health status, including but not limited to, his or her medical condition.  §483.10(c)(4) The right to be informed, in advance, of the care to be furnished and the type of care giver or professional that will furnish care.  §483.10(c)(5) The right to be informed in advance, by the physician or other practitioner or professional, of the risks and benefits of proposed care, of treatment and treatment alternatives or treatment options and to choose the alternative or option he or she prefers.  This REQUIREMENT is NOT MET as evidenced by:	F0552	Address how corrective action will be accomplished for those residents found to have been affected by the deficient practice.  Residents #12 and #26 no longer reside at the facility. Residents #1, 3, 4, 12, 13, and 16's psychotropic medication therapy informed consent forms were obtained and uploaded to the electronic medical record by the Director of Nursing on 3/25/2026.  Address how the facility will identify other residents having the potential to be affected by the same deficient practice.  An audit was completed by Director of Nursing on 4/8/2026 for current residents to ensure consent is obtained and the appropriate resident or responsible party is informed on the risks, benefits, and treatment alternatives of each psychotropic medication in advance.  Address what measures will be put into place or systemic changes made to ensure that the deficient practice will not recur.  Education was provided to all nursing staff on 3/26/2026 of the required "DHC Psychotropic Medication Consent Form", located under the observation tool in	04/14/2026

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See reverse for further instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

F0755 SS = D	<p>Continued from page 13</p> <p>An interview with Nurse #5 on 3/25/26 at 1:50 PM revealed that she was assigned to Resident #13 on 3/11/26 from 7:00 AM to 7:00 PM. She stated that the doxycycline was not available for Resident #13 on 3/11/26 in the resident's medication cabinet, and she did not check the automated medication dispensing machine and did not contact the pharmacy to obtain the medication from the local back up pharmacy. Nurse #5 stated that she documented awaiting pharmacy refill as she assumed that the medication would be delivered later that day or the next day.</p> <p>An interview was conducted with Nurse #2 on 3/25/26 at 12:15 PM. Nurse #2 reported that she was assigned to Resident #13 on 3/11/26 and 3/12/26 for the 7:00 PM to 7:00 AM shift. She stated that the doxycycline was unavailable on 3/11/26 and therefore she did not administer it. Nurse #2 stated that when she determined the doxycycline was not in Resident #13's medication cabinet, she checked the automated medication dispensing machine however the correct dose of the medication was not available in the machine. Nurse #2 acknowledged that she did not contact the pharmacy on 3/11/26 to obtain the medication but did place a call on 3/12/26. She also stated that she did not request that the medication be sent through the backup system. Nurse #2 reported that she informed the pharmacy the medication was not available in the facility and was told that the pharmacy had the order listed as once per day instead of twice daily. She acknowledged that she should have requested immediate delivery to ensure that Resident #13 did not miss any doses. She further stated that she did not report to the Director of Nursing or Physician that there was a discrepancy with the frequency of the medication between the pharmacy and the facility.</p> <p>Attempts were made to interview Nurse #7 with voicemail messages left with no return call received.</p> <p>An interview with the Director of Nursing (DON) on 3/25/26 at 2:30 PM revealed that she expected medications to be administered as ordered by the physician. The DON stated she would expect nursing staff to notify the pharmacy when a medication was not available in the facility so that the medication could be obtained through the local backup pharmacy. The DON further explained that the facility utilized an automated medication dispensing machine that housed an emergency supply of select medications. She stated that once the nurses determined the medication was not in the resident's medication cabinet, they should have checked the automated dispensing machine. If the</p>	F0755

F0755 SS = D	Continued from page 14 medication was not available there, the next step should have been to contact the pharmacy to obtain the medication from the local backup pharmacy. The DON stated that she had since learned that the automated medication-dispensing machine did not contain the correct dose of doxycycline.  An interview conducted with the Physician on 3/25/26 at 3:45 PM revealed that she was unaware that Resident #13 had missed 8 doses of the prescribed antibiotic. The Physician stated that medications should be available and administered as ordered. The Physician indicated that there was a potential for the infection that the antibiotic was ordered to treat to worsen if it was not administered for several days.  An interview with the Pharmacy Manager was conducted on 3/26/26 at 12:00 PM. The Pharmacy Manager stated that the pharmacy had systems in place to ensure medications were available daily, including twice daily deliveries and backup processes when necessary. The Pharmacy Manager indicated that if the pharmacy was notified that the doxycycline was not available in the facility, it would have been sent to the facility through the backup system. The Pharmacy Manager was unable to explain why the pharmacy had entered the order for doxycycline as once daily rather than twice daily. He stated that the pharmacy reconciled the orders sent to the pharmacy with what was entered by the nursing staff into the computer, after which a label was generated and the prescription was filled. He indicated that although missing eight doses of doxycycline was not expected to result in a significant clinical outcome, there was a potential risk for worsening of the infection for which the medication had been prescribed. This REQUIREMENT is NOT MET as evidenced by:  Based on record review, and residents, staff, Physician and Pharmacy Manager interviews, the facility failed to ensure residents were free from significant medication errors when 1.) Eight doses of the antibiotic doxycycline, prescribed twice daily for the treatment of chronic osteomyelitis (bone infection), were omitted on 3/9/26, 3/10/26, 3/11/26 and 3/12/26 for Resident #13. 2.) Resident #5 received 15 milligrams (mg) of mirtazapine (a psychotropic medication primarily prescribed for depression) instead of the physician ordered 7.5 mg dose. 3.) Resident #8 continued to receive hydroxyzine 25 mg (an antihistamine that directly affects the central nervous system and used to treat anxiety, allergic reactions, and induce sleep) three times a day instead of the reduced dose of twice a day. The residents did not experience any significant outcome, however this failure placed Resident #13 at risk for potential complications, and the potential for altered sedation levels, and an increased risk of adverse effects for Resident #5 and Resident #8. This occurred for 3 of 3 residents reviewed for medication administration (Resident #13, Resident #5, and Resident #8).  Findings included:  1.) Resident #13 was admitted on 2/12/26 with diagnosis which included chronic osteomyelitis and diabetes.  Review of a physician order dated 2/13/26 indicated Resident #13 was ordered doxycycline 100 milligrams (mg) by mouth twice per day indefinitely for chronic osteomyelitis.  Review of Resident #13's admission Minimum Data Set assessment dated 2/19/26 indicated the resident was	F0760	Address how corrective action will be accomplished for those residents found to have been affected by the deficient practice.  Resident #5 no longer resides at the facility. Resident #8 and #13's associated med errors were reported by the Director of Nursing on 3/25/2026. The provider and consultant pharmacist were notified of the associated med errors on 3/25/2026.  Address how the facility will identify other residents having the potential to be affected by the same deficient practice.  An audit was completed by Director of Nursing in tandem with Registered Pharmacy Consultant on 3/25/2026. An additional two residents were identified, total of three residents affected by the failure to adhere to system, resulting in non-execution of pharmacy recommendations.  Address what measures will be put into place or systemic changes made to ensure that the deficient practice will not recur.  Education provided to all nursing staff by the Director of Nursing on 3/23/2026 to ensure safe, accurate, and timely implementation of provider orders through proper receipt, transcription, and verification.  Staff that did not receive this in-service on 3/23/2026 will be required to review in-service before their next nursing shift.  Nursing staff or designee are expected to adhere to the three-step process. This includes admitting nurse or designee will receive and enter admission orders from transfer facility. Nurse at time of admission will verify order entry and accuracy. Subsequent shift staff nurse will complete associated audit to ensure orders are verified and entered Matrix accurately.  Indicate how the facility plans to monitor its performance to make sure that solutions are sustained.  Audit tool developed by Director of Nursing on 4/15/2026 to include verification of all admission and new orders, ensuring transcription accuracy.  Associated audit will be completed by the nursing staff	04/15/2026

F0760 SS = D	<p>Continued from page 19 with no return call received.</p> <p>Attempts were made to interview Nurse #7 via telephone with voicemail messages left on 3/24/26 and 3/25/26 with no return call received.</p> <p>An interview with Nurse #5 on 3/25/26 at 1:50 PM revealed that she was assigned to Resident #13 on 3/11/26 from 7:00 AM to 7:00 PM. She stated that the medication doxycycline was not available for Resident #13 on 3/11/26, and she did not contact the pharmacy to obtain the medication.</p> <p>An interview was conducted with Nurse #2 on 3/25/26 at 12:15 PM. Nurse #2 was assigned to Resident #13 on 3/11/26 and 3/12/26 from 7:00 PM to 7:00 AM. Nurse #2 stated that the medication doxycycline was unavailable for Resident #13 on 3/11/26 so she did not administer it. Nurse #2 stated that she thought that the medication would come from the pharmacy and indicated that the medication was not available in the facility's back up medication system. Nurse #2 stated that on 3/12/26 when the medication was again not available, she called the pharmacy to find out where it was. Nurse #2 stated that the pharmacy stated that they thought the medication was ordered once per day and did not think that the prescription should have run out. Nurse #2 stated that she informed the pharmacy that the medication was ordered twice per day.</p> <p>An interview with the Pharmacy Manager was conducted on 3/26/26 at 12:00 PM. The Pharmacy Manager stated that the pharmacy had systems in place to ensure medications were available daily, including regular deliveries and backup processes when needed. He indicated that although missing eight doses of the antibiotic doxycycline was not expected to result in a significant clinical outcome, there was a potential risk for worsening of the infection for which the medication was prescribed.</p> <p>An interview with the Director of Nursing (DON) on 3/25/26 at 2:30 PM revealed that she expected medications to be administered as ordered by the physician. The DON stated she would expect nursing staff to contact the pharmacy to obtain any medication that was not available.</p> <p>An interview conducted with the Physician on 3/25/26 at 3:45 PM revealed that she was unaware that Resident #13</p>	F0760

F0760 SS = D	<p>Continued from page 21 Resident #5's mirtazapine. She entered one tablet (15 mg) of mirtazapine instead of one-half tablet (7.5 mg). The DON stated they had a two-step system to verify that physician orders were entered accurately. This included that the admission nurse entered medication orders from the hospital discharge summary, if the admission nurse was not available the DON would enter the medication orders which was what happened when Resident #5 was admitted. Then a second nurse, which was typically the residents assigned nurse, was responsible for double checking the orders to ensure accuracy. The DON stated she transcribed the order wrong, and the two-step process was missed, and a second check was not done for this order. She stated she did not know who the second nurse was who should also have verified the orders. She was notified of the medication error by the Consultant Pharmacist and corrected the dose on 3/10/26. The DON stated Resident #5 has had no change in condition and was to be discharged home today.</p> <p>During a phone interview on 3/26/26 at 12:00 PM the Pharmacy Manager stated receiving 15 mgs of mirtazapine instead of 7.5 mgs was generally considered safe and 15 mgs was considered to be a low dose. He stated mirtazapine had dose dependent effects and sometimes lower doses were more sedating than higher doses.</p> <p>During a phone interview on 3/25/26 at 3:30 PM the Physician stated Resident #5 receiving mirtazapine 15 mgs instead of 7.5 mgs would cause no concern and Resident #5 had not experienced any outcome from receiving the medication.</p> <p>3.) Resident #8 was admitted to the facility on 7/8/22 with diagnoses including pruritus (persistent itching).</p> <p>A physician's order dated 7/10/23 for Resident #8 revealed hydroxyzine 25 milligrams (mg) three times a day for pruritus.</p> <p>The Consultant Pharmacist's Medication Regimen Review dated 1/12/26 noted that the Physician signed the pharmacy consult report from 12/12/25 to change Resident #8's hydroxyzine to 25 mg every morning and midday and discontinue three times a day. This order was not changed in the electronic medical record. Please correct and report the medication error.</p>	F0760
