Re: Comment Support for Petition from Bermuda Village for Special  
Need of 12 Nursing Home Beds in Davie County

Dear Chairman Ullrich and Mrs. Pfeiffer:

My name is Harry M. Wauters and I have been a resident of Bermuda Village for 5 1/5 years. I want to express my support for Bermuda Village,s petition to add 12 nursing care beds to the 2015 State Medical Facilities Plan in Davie County.

Good quality nusing home beds are in short supply in Davie County, and especially in Bermuda Village! I moved to Bermuda Village so that I could remain in an area that I love, and receive the services that thar I need, both today & in the future. Should the time come when I need nursing care services, I would much prefer to stay right here in Bermuda Village where I can remain close by to my friends & family, and receive care from the staff members with whom I already know. Having better access to a full spectrum of services, ensures a much higher quality of life for me, and continued peace of mind for my family & friends. Moreover, the county has only two full-sized nursing homes and they run at capacity!

Bermuda Village is offering an excellent solution that will serve Davie County area very well. I emlore the esteemed members of the State Health Coordinating Council & the analysts in the Planning Branch to approve this petition.

Sincerly, Harry M. Wauters, 109 Oleander Drive Bermuda Village
