Dear Sir,

Please accept this letter as support and clarification for the Village Family Dental request for a dental only ambulatory center in Cumberland County.

We are the oral surgery division of Village Family Dental. There are no plans to include oral surgery in the ambulatory center. The project is a pediatric dental care facility, which is a completely different scope of procedures than what we perform daily. We do not face the same issues that our pediatric dental counterparts face every day with regulations.

The dental ambulatory center in Cumberland County will allow the pediatric dentists to eliminate multiple appointments and wait times for their patients.

Thank you for your consideration.

Sincerely,

Anthony Maiorana, DDS
Lead Oral and Maxillofacial Surgeon
Southeastern Dental Specialists
