No Review – Home Peritoneal Dialysis Modality

Record #: 3573
Date of Request: May 25, 2021
Facility: Oak City Dialysis
FID #: 160068
Business Name: Total Renal Care of North Carolina, LLC
Business #: 1856
Project Description: Add home peritoneal dialysis modality to an existing facility
County: Wake

Dear Ms. Fleming:

The Healthcare Planning and Certificate of Need Section, Division of Health Service Regulation (Agency) received your request regarding the addition of the home peritoneal dialysis modality at the facility identified above. The proposal as described is not governed by, and therefore, does not currently require a certificate of need provided that the addition of the peritoneal dialysis modality services does not result in the development of dialysis stations that are in addition to the total number of authorized dialysis stations.

In addition, you should contact the Acute and Home Care Licensure and Certification Section to determine if they have any requirements for development of the proposed project.

Sincerely,

Michael J. McKillip

No Review Request – Add PD Modality to Existing In-Center Facility

Facility: Oak City Dialysis
County: Wake
FID: 160068

Dear Mr. McKillip:

We are requesting a No Review Determination which will allow Oak City Dialysis to add the Peritoneal Dialysis (PD) modality to the facility. Oak City Dialysis has identified one ESRD patient who wants to change their current modality to PD. Based on conversations with the nephrologists who admit patients to Oak City Dialysis, additional patients choosing PD are anticipated.

We are not seeking to add any additional dialysis stations to Oak City Dialysis with this request. We have adequate space in the facility to add the PD modality and will not incur a capital expense.

The facility will continue to offer in-center dialysis. This change will not adversely impact the patient population of the facility.

You may contact me at 704-577-2853 at your convenience.

Sincerely,

A handwritten signature in black ink that reads "Esther N. Fleming".
