F 000	An unannounced Recertification survey was conducted on 7/8/2019 through 7/11/2019. The facility was found in compliance with the requirement CFR 483.73, Emergency Preparedness. Event ID # HNUF11.	F 000			
F 641 SS=D	INITIAL COMMENTS An unannounced recertification survey and complaint investigation survey was conducted 7/8/2019 through 7/11/2019. Twelve allegations were unsubstantiated Event ID # HNUF11. Accuracy of Assessments CFR(s): 483.20(g) §483.20(g) Accuracy of Assessments. The assessment must accurately reflect the resident's status. This REQUIREMENT is not met as evidenced by: Based on record review and staff interviews the facility failed to accurately code the Minimum Data Set (MDS) level determination for 1 of 4 residents reviewed for Pre-Admission Screening and Annual Resident Review (PASARR) (Resident #92). The findings included: Resident #92 was admitted to the facility on 7/22/05 with diagnoses that included anxiety disorder and dementia. A review of a social work progress note dated 5/23/19 revealed Resident #92 was assessed as PASARR level II by the state with a severe mental illness.	F 641	"Preparation and/or execution of this plan of correction does not constitute admission or agreement by the provider of the truth of fact alleged or the conclusions set forth in the statement of deficiencies. The plan of correction is prepared and/or executed solely because it is required by provisions of federal and state law." Resident # 92 MDS with ARD of 6/25/19 Section A1510 was not coded to reflect the Severe Mental illness. A modification was completed on Resident #92 MDS with ARD of 6/25/19 on Section A1510 by the MDS coordinator on July 10, 2019. The Director of Care management	8/7/19

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

F 641	Continued From page 1 A review of Resident #92 ' s MDS assessment dated 5/25/19, which was a significant change assessment, revealed Resident #92 was coded in Section A, question A1510 as not having a severe mental illness. During an interview with MDS Nurse #1 on 7/10/19 at 4:37 PM she stated the assessment was incorrectly coded and Resident #92 was assessed by the state as having a severe mental illness. She stated she would make the correction. An interview was conducted 7/11/19 at 9:46 AM with the Facility Nurse Consultant. She stated the facility had identified coding inaccuracies on MDS assessments as a problem and the inaccuracy should have been caught prior to transmittal of the assessment.	F 641	provided in-servicing to the MDS Coordinators, the Director of Nursing and the Administrator on accurate coding requirements for Section A 1510 on July 15th, 2019. An audit was completed on 7/30/19 by the Director of care management on all Comprehensive assessments completed in the last 30 days to ensure that Section A1510 was coded accurately for residents with Severe Mental illness. Any accuracy issues were immediately corrected. The Director of Care management will utilize a monitoring tool to audit all residents with a Mental illness have accurate coding on Section A1510 weekly x 4 weeks, and then monthly x 2 months. The findings will be reviewed and revised if indicated at QAPI for three months. The Director of Care management is responsible for implementing the plan of correction by August 7th, 2019.

F 761	Continued From page 5 Findings included: During observation on 7/11/19 at 10:44 AM the 800 hall medication cart was observed unlocked and unattended approximately three feet from the entrance to a room. The door to the room was open but the curtain was drawn around the resident in the A bed. The middle drawer to the medication cart was observed to be slightly open. The Administrator and a family member were observed at the nurse's station approximately 24 feet away. At 10:46 AM Nurse #1 returned to her medication cart from behind the curtain in the resident's room. During the two minutes of observation the nurse was not in view of the medication cart as she was behind the curtain until she returned to the cart. During an interview on 7/11/19 at 10:46 AM Nurse #1 stated she left the cart unlocked because she left the door open to the room. She further stated she was unable to see the cart while she was in the room for a second behind the curtain, but she left it unlocked because the door was open. During an interview on 7/11/19 at 10:56 AM the Director of Nursing stated if the medication cart was not in view of Nurse #1 she should have locked the cart and pulled it up to the doorway.	F 761	provided 1:1 education on the expectations to supervise an unlocked cart at all times on 7/11/19 by the Director of Nursing. The Assistant Director of Nursing conducted an audit of all the other medication carts on 7/11/19 and no other carts were noted unsupervised. The Director of Clinical education provided in-services to the current licensed nurses on the expectations related to ensuring an unlocked medication cart is supervised at all time. This education will be completed by August 7th, 2019. This will be part of orientation for newly hired licensed nurses. The Unit managers or Assistant Director of nursing will do random audits of medication carts to inspect for supervision of any unlocked medication cart 5 x weekly for one month and then 2 x weekly for two months. The findings will be reviewed and revised if indicated at QAPI for 3 months. The Director of Nursing is responsible for implementing this plan of correction by August 7th, 2019.
