Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

F 550	<p>Continued From page 2</p> <p>Findings included:</p> <p>Resident #86 admitted to the facility on 4/15/22 and with diagnoses that included a history of type 2 diabetes mellitus, hypertension, hypothyroidism, and asthma.</p> <p>A review of Resident #86's quarterly minimum data set (MDS) dated 8/26/22 revealed Resident was cognitively intact.</p> <p>During an observation on 10/13/22 at 10:23 am Nurse # knocked on Resident #86's room door while NA #3 was providing activities of daily living care (ADL) care. NA #3 stated patient care when heard knock on room door, however Nurse # 12 proceeded to open room door. Resident #86 was lying in bed with lower body exposed and privacy curtain was open and while room door was open. Nurse #12 indicated she was doing covid testing and gestured with hand she was going to roommates' side of the room. NA #3 again stated "patient care" and Nurse #12 then closed room door. NA #3 pulled privacy curtain at that time.</p> <p>An interview was conducted on 10/13/22 at 10:39 am with Resident #86 and she indicated she did not like it when Nurse walked in room while she was receiving ADL care. She stated, "I did not like it, made me feel like I don't have no privacy, me laying here naked". Resident #86 indicated staff do not usually pull the privacy curtain while giving ADL care.</p> <p>An interview was conducted on 10/13/22 at 11:10 am with NA #3 and she indicated she should have had the privacy curtain but forgot to pull it.</p>	F 550	<p>10/08/22 with NA #3 and Nurse #12 on providing privacy to residents while providing activities of daily living (ADL). The education included the closing of curtains around the resident's bed while providing care and waiting for a response from the resident or staff member behind a closed door before entering a resident room.</p> <p>Corrective action for other residents having the potential to be affected by the same deficient practice.</p> <p>All residents have the potential to be affected by the alleged deficient practice. In-servicing was conducted by the Director of Health Services (DHS) and/or the Clinical Competency Coordinator (CCC) to all employees on resident rights and specifically their right to privacy on 11/08/22 through 11/14/22. Employees not educated by 11/21/22 will be educated prior to their next scheduled shift.</p> <p>All new hires will receive education on Resident Rights, specifically to include a resident's right to privacy during their general orientation.</p> <p>Systemic changes made to ensure that the deficient practice will not recur.</p> <p>Director of Health Services (DHS) and/or Department Managers will audit for employees knocking on resident's door and waiting for response from Resident and/or employee prior to entering resident's room to ensure privacy is</p>

F 550	Continued From page 3 During an interview on 10/13/22 at 11:20 am with Nurse #12 she indicated she did not hear NA #3 say patient care and she was not aware that Resident #86 was uncovered. She indicated she should have waited for Resident response before she entered room. On 10/13/22 at 1:06 pm an interview was conducted with the Director of Nursing (DON), and she indicated Nurse #12 was a new Nurse and new to the facility. She indicated Nurse # was in orientation, and believed it was a cultural difference and did not understand what was meant when NA #3 said patient care. The DON indicated Nurse #12 she should have knocked on the door and waited to be instructed to come in room before opening room door. She also indicated it was her expectation that the privacy curtain was pulled while providing ADL care. During an interview with the Administrator on 10/13/22 at 5:15 pm, she indicated she was aware of Nurse #12 and NA #3 not providing privacy for Resident #86 while she was receiving ADL care. She indicated Nurse #12 was in training and was doing a task. She further indicated it was her expectation that staff knocked on Residents room doors and waited for response before proceeding and privacy curtains to be pulled while providing ADL care.	F 550	being provided during Activities of Daily Living (ADL) care. This review will occur for 5 residents 3 times a week for 4 weeks and then 5 residents monthly times 3 months to ensure privacy is being provided during Activities of Daily Living (ADL) care. Plans to monitor its performance to make sure that the solutions are sustained. The Director of Health Services (DHS) will report findings of the employees by knocking on doors and waiting for resident and/or employee response to ensure privacy is maintained to the Quality Assurance Performance Improvement (QAPI) for review and revision monthly x 3 months or until substantial compliance is achieved. Date of compliance: 11/21/22

F 561	<p>Continued From page 6</p> <p>scheduled for showers every Thursday during first shift. NA #6 indicated the resident was totally dependent for bathing and needed a shower bed. NA #6 stated residents who needed a bariatric shower chair a shower bed for showers needed to be taken to the basement floor for showers in the "big" shower room that could accommodate the shower bed or the bariatric shower chair. Showers for these residents could not be offered in their rooms as the shower rooms could not accommodate a shower bed or a bariatric shower chair. NA #6 indicated due to COVID -19 outbreak in the facility, NAs were made aware by the management that the residents could not leave their rooms and hence could not be taken downstairs. NA #6 further indicated the resident required 2-person physical assistance for showers and there were not enough staff available to accommodate the resident request. NA stated the resident was offered a complete bed bath or partial bed bath instead.</p> <p>During an interview on 10/13/22 at 2:03 PM, NA #1 indicated she was occasionally assigned to Resident #92 during the first. NA #1 stated due to COVID-19 outbreak in the facility, residents who needed to be taken to the large shower room on the basement floor were not taken. These residents were offered a bed bath instead.</p> <p>During an interview on 10/12/22 at 11:00 AM, Nurse #3 stated she was the unit supervisor. Nurse #3 further stated Resident #92 was offered a complete or partial bed bath almost daily. Nurse #3 indicated to assist the resident to be transferred to shower and offer shower would require 2 NAs to leave the floor. This would mean the floor would be short staff and other residents' care would not be able to be provided. The floor</p>	F 561	<p>The Activity Director will review Resident Rights <input type="checkbox"/> Self-Determination and current Covid-19 guidelines on Activities of Daily Living (ADL) care including showers and/or bed baths, dining, activities, and leaving their rooms during a Covid-19 outbreak during the Resident Council meetings for the next 2 months.</p> <p>The Administrator and/or Social Worker (SW) will interview 6 residents twice a week for 4 weeks then, 6 residents weekly for 4 weeks to review understanding of resident rights to self-determination and the current Covid-19 guidelines regarding Resident Activities of Daily Living (ADL) care including showers and/or bed baths, dining, activities, and leaving their rooms during a Covid-19 outbreak.</p> <p>Plans to monitor its performance to make sure that the solutions are sustained. The Administrator and/or Social Worker (SW) will report findings of the twice weekly and weekly resident and staff interviews. These findings will be brought to the monthly Quality Assurance Performance Improvement (QAPI) meeting for review and revision monthly x 3 months or until substantial compliance is achieved.</p> <p>Date of compliance: 11/21/22</p>

F 580	<p>Continued From page 11</p> <p>Based on record review, staff interviews, physician assistant and physician interview, the facility failed to notify the physician of the development of an open wound to a resident's right leg on 7/27/22 that deteriorated in condition through 8/13/22 for 1 of 3 residents (Resident #293) reviewed for notification of change. This failure resulted in no physician evaluation of the wound and no physician ordered treatments to the wound. On 8/12/22 the wound was assessed by Nurse #7 with a foul odor and on 8/13/22 Nurse #7 notified the physician of the wound, a change in the resident's condition, and the physician ordered for the resident to be transferred to the hospital. Resident #293 was treated in the hospital for septicemia (blood poisoning, especially caused by bacteria or their toxins) and osteomyelitis (inflammation of the bone caused by infection) related to right leg wound.</p> <p>Immediate Jeopardy began on 7/27/22 when the facility failed to notify the physician of the open wound found on Resident #293's right leg. The Immediate Jeopardy was removed on 10/22/22 when the facility provided an acceptable credible allegation of immediate jeopardy removal. The facility will remain out of compliance at a scope and severity E (no actual harm with potential for more than minimal harm that is not immediate jeopardy) to ensure monitoring systems implemented are effective and to complete staff education.</p> <p>Findings included:</p> <p>Resident #293 was admitted to the facility on 6/8/22.</p>	F 580	<p>Corrective action for the residents found to be affected by the deficient practice.</p> <p>Resident #293 no longer resides in the facility.</p> <p>Corrective action for other residents having the potential to be affected by the same deficient practice.</p> <p>All residents have the potential to suffer a serious adverse outcome because of the failure to address/communicate/report/document the identification/condition/status/size/appearance of a wound on a weekly basis.</p> <p>The Director of Health Services (DHS) initiated 100% body audits on all residents within the facility on 10/20/22. The audit was completed on 10/21/22. There were no new skin integrity issues identified by comparing the known (current) skin integrity (wounds) on the wound manager report in the electronic medical record to those residents currently in house to the body audits completed on 10/20/2022. The Director of Health Services (DHS) and/or Nurse Managers have reviewed the wound audits conducted on 10/20-21/2022 and reviewed the documentation to ensure residents with skin impairments had a physician's order for treatment to affected areas, physician notification and documentation of the condition/status/size/appearance of the wound.</p> <p>The Director of Health Services (DHS)</p>

F 580	<p>Continued From page 12</p> <p>A review of a nursing progress note dated 7/27/22 at 7:24 pm made by Nurse # 11 read in part Resident #293 had an open wound to his right leg. No treatment orders were found. Wound was packed with normal saline, damp to dry sterile gauze, and covered with sterile gauze secured by kerlix (white gauze dressing). Resident tolerated well.</p> <p>During a telephone interview on 10/11/22 at 5:48 pm with Nurse #11 she indicated, on 7/27/22 she recalled Nursing Assistant (NA) #4 asked for assistance to provide care to Resident #293. She indicated when they went to turn the Resident, she observed an open area on the Resident's right leg that was about 1/2 inch in diameter and 2 inches long. She indicated she cleaned the wound and put a dressing on it and looked at the Resident's skin and did not see any other areas on the Resident's body. She indicated she reported the wound to Nurse #1 who was in the facility at the time, and Nurse #1 informed her she would let the wound Physician know about the wound the next morning. Nurse #11 indicated she asked Nurse #1 if she wanted her to measure the wound or get orders and she stated Nurse #1 informed her she would take care of it and instructed her to put a dressing on the wound.</p> <p>On 10/13/22 at 3:45 pm an interview was conducted with Nurse #1. She denied being notified by Nurse #11 of Resident #293 having any wounds on 7/27/22. She indicated she had no knowledge of the Resident having any wounds in July.</p> <p>Record review from 7/27/22 through 8/12/22 revealed no evidence the physician was notified</p>	F 580	<p>and/or Nurse Managers began education to the Nurses on 10/20/22 regarding weekly skin observations, documentation, physician order and physician notification. When a new skin impairment is noted, the Nurse will complete the wound documentation in the electronic medical record that includes description and measurement of area and contact the physician/physician extender for orders, regarding newly identified skin impairments and/or worsening skin impairments for wound treatment orders. This includes the observations and measurements are necessary as a monitoring tool to determine if there are any changes in the wound that would require a change in the treatment plan. On 10/20/22 and 10/21/22 the Director of Health Services (DHS) and Nurse Managers educated the Certified Nursing Assistants (CNA) on daily skin checks during personal care. This education includes notification to the nurse of any skin impairment and/or new dressing noted on resident's skin. The Certified Nursing Assistant will obtain a paper body diagram at the beginning of their shift from the nursing station on each unit and maintain in their possession throughout their shift. The Certified Nursing Assistant (CNA) will utilize a body diagram for each resident daily during resident care, for nurse notification of skin integrity issues. The Certified Nursing Assistant (CNA) will circle the area of the body on the body diagram noting where the skin integrity issue is with a pen / pencil and notify nurse regarding skin integrity issue. The</p>

Observations left in wound care and Physician book for evaluation.</p> <p>On 10/11/22 at 4:10 pm an interview was conducted with Nurse #7, and she indicated she was the Nurse that worked on 8/12/22. She indicated it was reported by NA #4 who was assigned to Resident #293 that he had blood on his sheets. She indicated she went to check the Resident and observed a bandage wrapped on his right leg. Nurse #7 indicated the bandage had no date on it and when she removed the bandage, she observed wound to right calf that had bloody, greenish drainage. She indicated she observed the wound to be to the bone. Nurse #7 indicated it was the end of her shift and she had to leave and left a written note in Physician book that is left at the nurse's station for further evaluation when Physician returned to facility, and she notified Physician verbally on the phone on 8/13/22.</p> <p>Review of electronic medical record revealed on 8/12/22 a SBAR (situation, background, assessment, resident evaluation) communication form was completed by Nurse #7. The communication form read in part a change in condition identified on 8/12/22 was a wound to right leg. Wound was evaluated to have drainage and foul smell. F 626 F 626 SS=D	Continued From page 30 Permitting Residents to Return to Facility CFR(s): 483.15(e)(1)(2) §483.15(e)(1) Permitting residents to return to facility. A facility must establish and follow a written policy on permitting residents to return to the facility after they are hospitalized or placed on therapeutic leave. The policy must provide for the following. (i) A resident, whose hospitalization or therapeutic leave exceeds the bed-hold period under the State plan, returns to the facility to their previous room if available or immediately upon the first availability of a bed in a semi-private room if the resident- (A) Requires the services provided by the facility; and (B) Is eligible for Medicare skilled nursing facility services or Medicaid nursing facility services. (ii) If the facility that determines that a resident who was transferred with an expectation of returning to the facility, cannot return to the facility, the facility must comply with the requirements of paragraph (c) as they apply to discharges. §483.15(e)(2) Readmission to a composite distinct part. When the facility to which a resident returns is a composite distinct part (as defined in § 483.5), the resident must be permitted to return to an available bed in the particular location of the composite distinct part in which he or she resided previously. If a bed is not available in that location at the time of return, the resident must be given the option to return to that location upon the first availability of a bed there.	F 626 F 626		11/21/22

Resident would be redirected to facts.</p> <p>Review of nursing note dated 9/20/2022 at 10:38 AM, documented emergency medical service (EMS) arrived at 6:20 AM and stated that resident called and stated "she needed help that her vaginal was burning. EMS escorted to resident room. Resident #39 stated she needed to go to the hospital. EMS was told that resident had psych issues and this behavior is ongoing. Resident calls 911 at least twice a week. The daughter was called and writer unable to leave message due to voicemail box being full.</p> <p>A telephone interview was conducted on 10/12/22 at 9:40 AM, the daughter stated that her mother was denied access to return to the facility on 9/20/22. She reported the facility liaison and administrator told the hospital Resident #39 could not return to the facility to due to her sexual allegations and a psychological evaluation needed to be done before she could return. The Responsible Person (RP) further stated the Resident #39 was cleared for return on 9/20/22, but the night shift nurse told the hospital social workers the bed had already been given to another resident. The hospital caseworker contacted the facility on 9/23/22 and was informed the psychology evaluation had been completed and Resident #39 was again ready for return to the facility. The RP further stated Resident #39 remains in the hospital due to facility denial for return. The RP stated she believed Resident #39 was inappropriately denied return to facility and it was the obligation of the facility to assist Resident #39 with obtaining proper psychological assistance and medication management once returned to the facility.</p>	F 626	<p>according to the Bed-hold policy.</p> <p>Systemic changes made to ensure that the deficient practice will not recur.</p> <p>All nurses are required to follow the bed-hold policy and allow residents to return from the hospital or therapeutic leave. The Admission Director will keep the Administrator and/or Director of Health Service (DHS) informed of a resident's status while in the hospital and their expected date of return to the facility. The Admissions Director will follow-up with the Case Manager at assigned hospital for each hospital discharge on an anticipated return date.</p> <p>Discharges to the hospital will be documented on the hospital discharge log and discussed daily during the morning IDT meeting Monday through Friday to review all residents discharged to the hospital and their anticipated return date by the Administrator and/or Director of Health Services (DHS). The Administrator will audit discharges/transfers to the hospital to ensure the resident returns to the facility when medically cleared. This will occur weekly for 4 weeks then monthly times one.</p> <p>Ongoing education will be provided to newly hired Director of Health Services, Administrator, Social Worker, Licensed Nurse's, and Unit Managers during general orientation.</p> <p>Plans to monitor its performance to make</p>

F 626	<p>Continued From page 33</p> <p>A telephone interview was conducted on 10/12/22 at 9:58 AM, the facility Nurse Liaison stated she had spoken with the hospital case manager at the time of Resident #39's initial admission on 9/20/22 and stated the resident was unable to return due to sexual allegation. She added the administrator had informed her of a report from law enforcement that Resident #39 continued to make allegations of staff poisoning her at the facility. Therefore, Resident #39 was denied return on 9/20/22. The Nurse Liaison further stated she did ask the hospital case managers to complete a psychological evaluation on the resident before any further discussion would be held regarding her return. The Nurse Liaison indicated she had not follow-up with the hospital case manager of the status of Resident #39 to determine if the return would be appropriate. The final decision for Resident #39 was made by the administrator and corporate office.</p> <p>An interview was conducted on 10/13/22 at 10:00 AM, the Administrator stated she did not have any documentation of the direct discussion from the officer that the Resident #39 continued to make verbal statements of specific staff would poison her. She stated Resident #39's accusatory behavior and frequent calls to 911 was a problem and the facility could not meet her behavior needs. The resident would need to be stable psychologically before she could return. She did not feel she could meet her needs due to her allegations of staff poisoning her and providing care if the resident refused. She stated she did tell the liaison that the resident would not be accepted for return after speaking with management. She was not aware of the follow-up conversation held with the liaison that the resident was ready for return at this time. She had not</p>	F 626	<p>sure that the solutions are sustained.</p> <p>The Administrator and/or Director of Health Services (DHS) will report the analysis of the hospital discharge log to the Quality Assurance Performance Improvement (QAPI) Committee for review and revision monthly x 3 months or until substantial compliance is achieved.</p> <p>Date of compliance: 11/21/22</p>

F 677	Continued From page 68 observation of resident's fingernails stated the resident's nails should have been trimmed when the resident was offered a bed bath or when offered a shower. Nurse #3 then asked the resident if he would like his fingernails to be trimmed and the resident responded "sure". Nurse #3 indicated she would ensure the resident's fingernails were trimmed and cleaned. Nurse #3 stated the resident was readmitted to the facility on 10/8/22 from the hospital. The resident had a decline in health and was placed under hospice care. During an interview on 10/12/22 at 11:00 AM, The Director of Nursing (DON), she indicated the resident's fingernails and toenails should be trimmed as needed, when the resident was offered a shower or a bed bath. She indicated unless the resident was a diabetic resident, the NA could trim residents' fingernails or toenails. If the resident was a diabetic, then the assigned nurse was responsible for trimming both fingernails and toenails. The DON stated the resident's fingernails should have been trimmed and cleaned by staff as needed. The resident could also be placed on the podiatrist list so that his toenails could be trimmed. F 684	<p>Continued From page 69</p> <p>care plan, and the residents' choices. This REQUIREMENT is not met as evidenced by:</p> <p>Based on record review, staff interviews, physician assistant and physician interviews, the facility failed to identify/assess a wound for 1 of 3 residents (Resident #293). Nurse #11 identified a wound on Resident's right leg on 7/27/22. There were no orders for wound care. From 7/27/22 to 8/12/22 Nurses failed to complete the weekly body observations that included wound observations and measurements. On 8/12/22 Nurse # 7 noted an open wound to posterior right leg with foul smelling odor with some bleeding and, Nurse #7 failed to address/communicate/report/document the condition/status/size/appearance of the wound. On 8/13/22 Resident #293's condition changed, and Resident #293 was hospitalized. Resident #293 required treatment for septicemia and osteomyelitis related to the right leg wound.</p> <p>Immediate Jeopardy began on 7/27/22 when Nurse #11 identified a wound to Resident's posterior right leg, and necessary care and services were not provided. The Immediate Jeopardy was removed on 10/22/22 when the facility provided an acceptable credible allegation of immediate jeopardy removal. The facility will remain out of compliance at a scope and severity E (not actual harm with potential for more than minimal harm that is not immediate jeopardy) to ensure monitoring and all staff have been in-serviced.</p> <p>Findings included:</p> <p>Resident #293 admitted to the facility on 6/8/22.</p>	F 684	<p>Corrective action for the residents found to be affected by the deficient practice. Resident #293 no longer resides in the facility.</p> <p>Corrective action for other residents having the potential to be affected by the same deficient practice. All residents have the potential to be affected by the alleged deficient practice.</p> <p>The Director of Health Services (DHS) initiated 100% body audits on all residents within the facility on 10/20/22. There were no new skin integrity issues identified by comparing the known (current) skin integrity (wounds) on the wound manager report, in the electric medical record, currently in house to the body audits completed by the nurses on 10/20-21/2022.</p> <p>The Director of Health Services (DHS) and/or Nurse Managers have reviewed the wound audit conducted on 10/20-21/22 and reviewed the documentation to ensure residents with skin impairments had an order for treatment to areas. The Director of Health Services (DHS) and Nurse Managers reviewed residents with skin impairments identified on their 10/20/22 and 10/21/22 body audits to ensure the resident had a treatment order in place, physician notification, and document of the condition/status/size/appearance of the wound.</p>

She indicated when she came to work on the 11pm shift on 8/12/22 and while doing her rounds she went to check Resident and saw drainage on his sheets and noted a bandage on his right leg. She indicated she reported her findings to Nurse #7.</p> <p>A review of Nursing progress note dated 8/12/22 at 10:00 pm by Nurse #7 read in part Resident # 293 was found to have an open wound on right leg (calf) with a foul-smelling odor, and some bleeding noted. Observations left in wound care and Physician book for further evaluation.</p> <p>On 10/11/22 at 4:10 pm an interview was conducted with Nurse #7, and she indicated she was the Nurse that worked on 8/12/22. She indicated it was reported by the NA #4 assigned to Resident # 293 that he had blood on his sheets. She indicated she went to check Resident and observed a bandage wrapped on his right leg. Nurse #7 indicated the bandage had no date on it and when she removed the bandage, she observed wound to right calf that had bloody, greenish drainage. She indicated she observed the wound to be to the bone. Nurse #7 indicated it was the end of her shift and she had to leave.</p> <p>During a follow up interview with Nurse #7 it was clarified that on 8/12/22 she found Resident #293 with a dressing on Resident's right calf area, and it had no date, the dressing was soiled, and a foul</p>	F 684

F 686	<p>Continued From page 85</p> <p>Resident #83 was initially admitted to the facility on 3/25/08 and readmitted to the facility on 10/7/22. Diagnoses included sacral pressure ulcer, type two diabetes mellitus without complications, left and right leg above knee amputations, and muscle weakness.</p> <p>The quarterly minimum data set (MDS) dated 7/5/22 revealed Resident #83 was at risk for pressure ulcer development. She had no pressure ulcers at the time of assessment.</p> <p>Weekly skin assessment documentation was not provided.</p> <p>A wound note by Nurse #1 dated 7/10/22 revealed Resident #83 had a new sacral wound, and she was started on supplements to promote wound healing. The wound had a light amount of exudate (drainage) and was noted to have the following measurements: length 2.5 centimeters (cm), width 4.5 cm, and depth 0.3 cm.</p> <p>A physician order for wound treatment dated 7/10/22 stated clean sacral wound with normal saline or wound cleanser and pat dry. Apply Medi honey to the wound bed and cover with a dry dressing once daily.</p> <p>Review of a wound note by Nurse Practitioner (NP) #1 dated 7/13/22 revealed Resident #83 was assessed for a new sacral wound. Resident #83 required extensive staff assistance with mobility, followed some commands, and was not combative. NP #1 indicated the wound exhibited some yellow slough and debris. Therefore, depth of the wound was estimated to be 0.4 cm. The length was measured to be 2.2 cm and the width</p>	F 686	<p>integrity (wounds) on the wound manager report, in the electric medical record, currently in house to the body audits completed by the nurses on 10/20-21/2022.</p> <p>The Director of Health Services (DHS) and/or Nurse Managers have reviewed the wound audit conducted on 10/20-21/22 and reviewed the documentation to ensure residents with skin impairments had an order for treatment to areas. The Director of Health Services (DHS) and Nurse Managers reviewed residents with skin impairments identified on their 10/20/22 and 10/21/22 body audits to ensure the resident had a treatment order in place, physician notification, and document of the condition/status/size/appearance of the wound.</p> <p>The Director of Health Services (DHS) and/or Nurse Managers began education to the Nurses on 10/20/22 on weekly skin observations and documentation in the electronic health record of same. When a new skin impairment is noted, the Nurse will complete the wound documentation in the electronic medical record that includes description and measurement of area and contact the physician/physician extender for orders, newly identified skin impairments and/or worsening skin impairments for wound treatment orders. This includes the observations and measurements are necessary as a monitoring tool to determine if there are any changes in the wound that would</p>

F 686	<p>Continued From page 86</p> <p>was 5.8 cm. There was a presence of necrotic tissue (tissue death) and a mild amount of drainage noted. The plan was to apply topical Medi honey gel that would promote debridement. NP #1 recommended use of an air mattress to promote optimal offloading of the resident's weight on her sacrum, as well as repositioning. The NP indicated the origin of the pressure ulcer as in-house and marked "no" for unavoidable.</p> <p>Review of a wound note by NP #1 dated 8/3/22 indicated the sacral wound had a slight deterioration in appearance. It was noted to be a stage three pressure injury and measured length 1.5 cm, width 3.5 cm, and depth 0.2 cm. There was a mild amount of exudate, and a debridement was performed. It was noted that offloading weight should continue as well as nutritional support measures.</p> <p>Resident #83's care plan, revised on 8/4/22, revealed a focus area for pressure ulcers. The goal was for Resident #83's pressure ulcer to heal without complications. Interventions included monitored pressure ulcer for signs and symptoms of infection, informed the physician or nurse practitioner of any changes, and provided treatments as ordered.</p> <p>A wound note by NP #1 dated 8/10/22 indicated Resident #83's wound was deteriorating. The was a mild amount of exudate and measurements were as follows: length 6cm, width 5 cm, and depth 0.2 cm. The resident was noted to be dependent for transfers and urinary diversion with catheter placement was addressed.</p> <p>A wound note by NP #1 dated 8/24/22 indicated Resident #83's wound healing demonstrated</p>	F 686	<p>require a change in the treatment plan.</p> <p>The Clinical Competency Coordinator (CCC) was notified on 10/21/22 by the Licensed Nursing Home Administrator (LNHA) to add the skin observations and documentation in the electronic health record education to the Nurse general orientation upon hire with emphasis that the nurse who identifies the skin integrity issue completes the wound documentation, physician notification, initiates treatment per physician order for new / changes in skin integrity.</p> <p>On 10/20/22 and 10/21/22 the Director of Health Services (DHS) and Nurse Managers educated the Certified Nursing Assistant (CNA) on daily skin checks during personal care. This education includes notification to the nurse of any skin impairment and/or new dressing noted on resident's skin. The Certified Nursing Assistant (CAN) will obtain a paper body diagram at the beginning of their shift from the nursing station on each unit and maintain in their possession throughout the day. The Certified Nursing Assistant (CAN) will utilize a body diagram for each resident daily during resident care, for nurse notification of skin integrity issues. The Certified Nursing Assistant (CNA) will circle the area of the body, on the body diagram, with the skin integrity issue with a pen / pencil and notify of skin integrity issue. The Nurse will complete body observations on residents the Certified Nursing Assistant (CNA) have identified with new skin integrity issues</p>

F 759	<p>Continued From page 95</p> <p>ml of water into the med cup to dissolve the crushed tablets.</p> <p>Nurse #8 was observed as she brought the medications into Resident #40's room for administration on 10/12/21 at 8:25 AM. The nurse connected a syringe to the resident's G-tube and first poured the oxycodone mixed with water into the syringe followed by the gabapentin mixed with water. The crushed tablets mixed with water were administered last followed by 15 ml of plain water. Plain water flushes were not observed to be given prior to the first administration of the medications or between the medications being administered via G-tube.</p> <p>A review of Resident #40's current orders included the following, in part: "During medication administration times, flush tube with 15 millers water before and after medications and 5 millers with each medication" (Start date 5/16/22).</p> <p>An interview was conducted on 10/12/22 at 9:30 AM with Nurse #8. During the interview, the medication concerns identified during the med administration observation for Resident #40 were discussed. When discussing the resident's medications being crushed then administered together and failure to flush the G-tube as indicated by the physician's order, the nurse stated she was aware of the orders. However, Nurse #8 stated she felt Resident #40 could best tolerate the medications as she had administered them.</p> <p>An interview was conducted on 10/12/22 at 3:35 PM with the facility's Administrator and Regional Nurse Consultant. During the interview, concerns identified during the medication administration</p>	F 759	<p>administration via a g-tube per policy. This education was completed on 11/21/22. Any Licensed Nurses not completing education by 11/21/22 will be required to complete education prior to the start of his/her next scheduled shift.</p> <p>The Pharmacy Consultant will continue to educate nursing and make any recommendations monthly regarding medication administration via a g-tube and Levemir FlexTouch pens.</p> <p>All new hired nurses will receive the medication administration via g-tube and Levemir FlexTouch pen education during orientation.</p> <p>Systemic changes made to ensure that the deficient practice will not recur.</p> <p>The Director of Health Services (DHS), Clinical Competency Coordinator (CCC) and/or Pharmacy Consultant will observe medication administration via a g-tube for five nurses three times a week x 4 weeks, once a week x 4 weeks, then monthly times 3 months or until compliance is achieved.</p> <p>The Director of Health Services (DHS), Clinical Competency Coordinator (CCC) and/or Pharmacy Consultant will observe medication administration via a Levemir FlexTouch pen for five nurses three times a week x 4 weeks, once a week x 4 weeks, then monthly times 3 months or until compliance is achieved.</p>

F 759	<p>Continued From page 96</p> <p>observation were discussed. The Regional Consultant stated she was aware meds administered via G-tube were to be given one medication at a time with water flushes in between each medication.</p> <p>An interview was conducted on 10/13/22 at 12:10 PM with the facility's Director of Nursing (DON). During the interview, the DON stated she was aware of the med pass observations and was disappointed in the results. When asked, the DON reported the facility staff had been educated to administer one medication at a time via G-tube with a water flush given between each medication. She also stated that if the medications were supposed to be instilled via tube differently than the usual practice, there needed to be a physician's order specifying how the meds needed to be administered.</p> <p>2. On 10/12/21 at 8:06 AM, Nurse #8 was observed as she prepared medications for administration to Resident #40 via G-tube. After these medications were administered to the resident, the nurse prepared the insulin for administration. Nurse #8 was observed as she withdrew a Levemir FlexTouch prefilled insulin pen from the medication cart, placed a needle on the pen, and turned the dose selector to select 8 units of insulin in preparation for the injection. The nurse did not prime the insulin pen. Nurse #8 was observed as she injected the insulin into the resident's right upper arm.</p> <p>The manufacturer's Full Prescribing Information for the Levemir FlexTouch pen included "Instructions for Use." These instructions indicated the insulin pen needed to be primed with 2 units of insulin prior to each use.</p>	F 759	<p>Plans to monitor its performance to make sure that the solutions are sustained.</p> <p>The Director of Health Services and/or the Clinical Competency Coordinator (CCC) will report to the Quality Assurance Performance Improvement Committee (QAPI) x 3 months for review and revision monthly x 3 months or until substantial compliance is achieved.</p> <p>Date of compliance: 11/21/22</p>

F 759	Continued From page 97 An interview was conducted on 10/12/22 at 9:30 AM with Nurse #8. During the interview, the medication concerns identified during the medication administration observation for Resident #40 were discussed. When asked about priming the Levemir FlexTouch insulin pen, the nurse stated she normally did prime the pen but acknowledged she did not prime it this time. An interview was conducted on 10/13/22 at 12:10 PM with the facility's Director of Nursing (DON). During the interview, the DON stated she was aware of the medication pass observations and was disappointed in the results. When asked, the DON stated the Levemir insulin pen needed to be primed with 2 units of insulin prior to each use.	F 759
