

NC Department of Health and Human Services
NC Home Care Aide Curriculum
 Module 21 – Palliative Care
 July 2021

1

OBJECTIVES

1. Explain the premise of palliative care
2. Differentiate between hospice and palliative care
3. Describe who could benefit from palliative care
4. Explain the home care aide's role in palliative care

NCDHHS/DHSR/HCPEC | Module 21 Palliative Care | July 2021

2

The Goal of Palliative Care

- The goal of palliative care is to prevent and relieve suffering and to improve quality of life for people facing serious, complex illness

NCDHHS/DHSR/HCPEC | Module 21 Palliative Care | July 2021

3

Handout #1

**The World Health Organization (WHO)
Definition of Palliative Care**

NCDHHS/DHSR/HCPEC | Module 21 Palliative Care | July 2021 4

4

Hospice Or Non-Hospice Palliative Care?

- Palliative care is different from hospice care, so those services should not be used interchangeably.

NCDHHS/DHSR/HCPEC | Module 21 Palliative Care | July 2021 5

5

Palliative Care Is More Than Pain Control

- When a patient exhibits a physiological symptom such as pain, there are often psychological, social, and/or spiritual symptoms as well.

NCDHHS/DHSR/HCPEC | Module 21 Palliative Care | July 2021 6

6

Handout #2
Tips for the Nursing Assistant's Role in Pain Management

NCDHHS/DHSR/HCPEC | Module 21 Palliative Care | July 2021 7

7

Nurse Aide As Part Of The Care Team

- Team approach
- Adequate training

NCDHHS/DHSR/HCPEC | Module 21 Palliative Care | July 2021 8

8

Activity #1
Pain/Interventions Examples

NCDHHS/DHSR/HCPEC | Module 21 Palliative Care | July 2021 9

9

SPIRITUAL AND/OR EMOTIONAL PAIN

- Grief and grieving

NCDHHS/DHSR/HCPEC | Module 21 Palliative Care | July 2021 10

10

Handout #3

Elisabeth Kübler-Ross
Five Stages of Grief

NCDHHS/DHSR/HCPEC | Module 21 Palliative Care | July 2021 11

11

Activity #2

Examples of the 5 Stages of Grief

NCDHHS/DHSR/HCPEC | Module 21 Palliative Care | July 2021 12

12

Listening skills and communication skills are of the utmost importance right now as a home care aide. Patients may not be able to verbalize their pain or discomfort. Therefore, the home care aide should watch for changes in behavior and report findings to the nurse supervisor. This goes for all patients, not just those receiving palliative care.

NCDHHS/DHSR/HCPEC | Module 21 Palliative Care | July 2021
