Sir,

I have been a dialysis patient for almost three years. I live in Franklin and travel three times a week to Sylva for treatment. The treatment is four hours, then the return trip to Franklin.

I would like to encourage you and whoever would be responsible for allowing a treatment center to be built in Franklin to do all you can to make this happen. Not only is this situation a hardship and an inconvenience for me, it is also hazardous in the winter time when the roads are icy.

Please do all you can for the dialysis patients in Franklin! There are many of us. Thank you for your consideration of this matter.

Leonard Max Wiggins
