Amount of debt in monetary default		\$0	\$0	\$0	\$0	\$0	\$0	
Number of program employees		4	4	4	4	4	3	

Note 1: Projections for the current fiscal year include some refunding bond issues which are sensitive to a change in interest rates in the market and therefore may or may not prove to be feasible depending upon the particular set of circumstances for each proposed refunding.

Note 2: There is no assurance that all of the projected debt will be issued as the completion of a financing is subject to the effect of circumstances beyond the Commission's control and jurisdiction, such as interest rate changes, decisions of the healthcare facility, construction schedules, federal tax regulations, State law, decisions and rules of various regulatory agencies, as well as decisions of State and federal courts, and actions of State and federal legislative bodies.

Note 3: The amount projected to be outstanding at June 30, 2017 does not reflect scheduled amortization.
