MEMORANDUM

TO: Recipients of the *2015 State Medical Facilities Plan*

THROUGH: Drexdal Pratt, Director
Division of Health Service Regulation

FROM: Shelley Carraway, Chief
Healthcare Planning and Certificate of Need Section

SUBJECT: Revised Child/Adolescent Chemical Dependency Treatment Bed Need Determination for the Western Region

DATE: February 20, 2015

The published *2015 State Medical Facilities Plan (SMFP)* identifies a need determination for two additional child/adolescent chemical dependency treatment beds in the Western Region. On December 5, 2014, the Healthcare Planning and Certificate of Need Section issued a Certificate of Need for 15 child/adolescent chemical dependency treatment beds to be located in the Western Region. This certificate was issued pursuant to a need determination in the *2014 SMFP*. The methodology for chemical dependency treatment beds does not include an adjustment in the following year's SMFP for a bed need for which no certificates have been issued at the time the plan is submitted to the Governor. Thus, the *2015 SMFP* did not show the increase in the existing planning inventory.

Pursuant to Policy GEN-2, the existing planning inventory has been revised and the projected need determination has been recalculated. **The projected need for child/adolescent chemical dependency treatment beds for the Western Region in the 2015 SMFP has decreased from two to zero.** The review opportunity for the Western Region has been eliminated from the *2015 SMFP*.

Enclosed is a revised Table 16D (page 383). Please insert the new page into each copy of the *2015 SMFP*. This memorandum and related material will be placed on the Division's website.

If you have questions about the revised need determination for child/adolescent chemical dependency treatment beds for the Western Region, please contact Amy Craddock in Healthcare Planning at 919-855-3865 or Martha Frisone in Certificate of Need at 919-855-3873.
